### **AUTHOR'S / SPONSOR'S STATEMENT OF INTENT**

The culture in and around the Texas Capitol contains a history of sexual assault, harassment, and predatory behavior. In the past, the legislature has made strides to address these deeply rooted systemic issues.

Most recently a staffer reported that a lobbyist used the "date rape drug" on her. Since this report occurred, the Texas Department of Public Safety is conducting a full investigation. Moreover, a lobbying group has shared that they hired outside legal counsel to launch an internal investigation.

There should be no room for sexual assault, harassment, and predatory behavior in the Texas Capitol. Our office and the entire Texas Senate joint authored S.B. 2233, which requires the registration of a lobbyist to be contingent on the completion of a sexual harassment prevention training course and the completion of an ethics course. The Texas Ethics Commission will be granted authority to approve the course.

We have many more strides to make. However, ensuring at a minimum the completion of sexual harassment prevention training and ethics courses will help ensure safe, responsible, and professional individuals are working in and around our building.

As proposed, S.B. 2233 amends current law relating to requiring sexual harassment prevention training and ethics training to register as a lobbyist.
