Related Categories: Resource highlights, Legislative process

The LRL's [state budget timeline](#) has been updated to reflect the budget process for the 2020–2021 biennium. Currently, state agencies are in the process of developing strategic plans and Legislative Appropriation Requests (LARs). The LARs documents will be available in the Legislative Budget Board's database [here](#).

You can click through the timeline to see what is scheduled to happen in each date range. The LRL will add links to budget bills and related documents as they are released.

Past budget timelines are available in PDF form just below the timeline, as well as a variety of other budget resources. Be sure to check back for updates as budget planning progresses for the upcoming biennium.
