Every legislative session, about 20-30 agencies go through the Sunset process—the regular assessment of the continuing need for a state agency or program to exist. The Sunset Advisory Commission submitted its [Report to the 85th Legislature](#) on Friday, Feb. 10. Per Sunset procedures, an agency, program, policy, or law will be abolished on its "sunset" date unless the legislature passes a bill to continue it. Such bills often enact revised policies as recommended in the review process.

Wondering how you can find these bills? The Sunset Commission recently added a [page](#) dedicated to the 85th Legislature where you can see which agencies were reviewed and what bills have been filed. They also are [tweeting](#) Sunset bills as they are filed.

In addition, you can find Sunset bills on [Texas Legislature Online](#). Select "Search" from the top navigation, and pull down to "Bill Search." From that screen, go to the Subjects section and click on "Select subject criteria." This will pull up the box as seen below. (If your pop-up blocker is enabled, you may have to tell it to allow this exception.) Do a search for "sunset," then select "Sunset--Commission Bills (10772)." Click on the right arrow to move it to your "Selected" subjects, then click OK to return to the main Bill Search screen.

From here, you can click on "Search" in the top right corner, and you will get your results. You can refine your results to particular subjects of interest, look back at past years' sunset bills, and more.
