Related Categories: Legislation

After each legislative session, the [House Research Organization](#) (HRO), the [Senate Research Center](#) (SRC), and the [Texas Legislative Council](#) (TLC) publish overviews of the session's accomplishments. These reports provide summaries of enrolled bills and analysis of major legislation. All three are now available for the 86th Legislature:

- *Highlights of the 86th Texas Legislature: A Summary of Enrolled Legislation, volume 1 & volume 2*, Senate Research Center
- *Major Issues of the 86th Legislature*, House Research Organization
- *Summary of Enactments: 86th Legislature*, Texas Legislative Council

Each overview is organized by topic and gives a unique look at the session. The SRC overview provides brief summaries of all enrolled bills, including an analysis of the appropriations bill. The TLC overview offers summaries of all enrolled legislation, notes effective dates, and contains veto statements. The HRO overview highlights legislation on major topics, including bills that did not pass, and features extensive analysis and statements by supporters and opponents.

The TLC additionally published [New, Renamed, and Abolished State Governmental Entities: 86th Legislature](#) and updated the [online statutes and Texas Constitution](#) to reflect the 86th Legislature's enactments and the November 2019 constitutional amendment election outcomes.

If you're looking for information on previous sessions, overviews back to the 48th Legislature can be found at the Legislative Reference Library's [Session Summaries](#) page.
