Although our primary focus is on Texas' legislative branch, the LRL maintains a [Texas Governors database](#) with a myriad of resources. In addition to providing biographical information on Texas governors, 1846-present, it features a searchable database of executive documents. You can search by governor, document type (executive order, message, proclamation, speech, veto, and other), date of publication, keyword, and session.

To see the complete list of Texas governors with party affiliation, years in office, and legislatures as governor, click [here](#).

We also have a few popular searches saved, making it easy to find [inaugural items](#), the [governor's emergency matters](#) and [budgets](#), and [disaster declarations \(from 2001-present\)](#) (see below).
