Basic bill information for enrolled bills from the 12th–15th Legislatures (1870–1876) is now available in the [Legislative Archive System \(LAS\)](#). This includes bill numbers, captions, chapters numbers, and session law scans. We've also added the joint and concurrent resolutions that were published in the *General and Special Session Laws* to LAS from these sessions.

Enrolled bills from the 12th–15th Legislatures are accessible through both the [direct search](#) and the [advanced search](#). When using the advanced search, select "View All" for the bill status.

Please note that enrolled bills from the following two sessions are only accessible through the [direct search](#) in LAS:

- 12th Adjourned Session (Sept. 22, 1871–Dec. 2, 1871)
- 14th 2nd Regular Session (Jan. 22, 1875–March 15, 1875)

For related information about these and other sessions, don't forget to check the [session snapshot](#) and the scanned [House and Senate Journals](#).

Since LAS is a work in progress, complete information is not available for all bills and all sessions. Visit LAS' [status page](#) for more details about this ongoing project. For assistance using LAS, please contact the [library](#).
