With Senate and House committees appointed and meetings underway, do you need to know more about a certain committee? The Library has many helpful resources in the [Committees](#) section of our website. You can...

- View committee meeting information, both for [today](#) (with agendas) and [past](#) (with agendas, witness lists, and/or minutes).
- View [committee member lists](#) for standing committees and [committee lists by session](#), from the 1st Legislature to present.
- [Search for committees](#) by member name or committee member name.
- Explore [interim reports](#) and other legislative reports published by legislative committees, back to the 1st legislative session.
- Search for [legislative committee minutes and related documents](#) for the 63rd-77th Legislatures. (Minutes from the 78th-85th Legislatures can also be searched here; they are available through [Texas Legislature Online](#).)
- Review [standing committee appointment lists](#) sorted by committee back to 1991.
