Interested in recent state legislation related to federal health care laws? Do you ever need to see what state legislatures are doing about immigration, juvenile justice or other important topics?

[Searchable bill databases](#) created by the National Conference of State Legislatures can help.

Each database covers a different topic, and can be searched by state, topic, and keyword. Search results include a summary of each bill, along with bill numbers and bill status and history information. Most databases are updated every two weeks.
